Lilydale Primary Needs More Land.

On the 4th of May, I presented a petition to Parliament on behalf of Lilydale Primary School supporting the proposed use of the decommissioned Lilydale Police Station land to extend their playground. The existing playground offers limited space for students to run, play and explore. As a result of our united lobbying the Minister for Education has made a commitment to purchase the land from the Department of Justice once it becomes available. However, the land is needed now, not in a couple of years. A delay in the release of land by the Department of Justice will impact on the school's plans under the BER program. The ball is now in the Attorney General's court.
